

CHAPCO® Products Contributing to LEED® Certification

CHAPCO Products contribute to LEED® project certification in two key areas and up to five possible project points.

1) Materials and Resources

- MR Credit 4: Recycled Content (up to 2 points)
- MR Credit 5: Regional Materials (up to 2 points)*

2) Indoor Environmental Quality

- IEQ Credit 4.1: Low-Emitting Materials, Adhesives and Sealants (1 point)
- IEQ Credit 4.2: Low-Emitting Materials, Coatings (1 point)

The following applies to LEED® New Construction Version 3. Requirements will vary according to LEED rating systems. Visit www.usgbc.org to obtain LEED requirements as they pertain to your specific project.

Reference Guide for Applicable Credits		
MR Credit 4: Recycled Content	Points	Requirement
Credit MR 4		First point is earned if the value of post-consumer recycled content plus one half of the value of pre-consumer/post-consumer content constitutes at least 10% based on cost, of the total value of the materials in the project.
		Second point is earned if the 20% level is reached.
MR Credit 5: Regional Materials*	Points	Requirement
Credit MR 5		10% (based on cost) of the "total building materials or products" used have been extracted, harvested, or recovered, as well as manufactured within a 500 mile radius of project site.
		Second point is earned if the 20% level is reached.
Low-Emitting Materials	Points	Requirement
IEQ Credit 4.1		All adhesives/sealants used in the project must meet the specified VOC limit per each application type. VOC limit is 65 g/L for tile adhesives, 50 g/L for carpet, VCT and cove base adhesives, 100 g/L for wood flooring adhesives, and 70 g/L for multi-purpose construction adhesives.
IEQ Credit 4.2		All paints and coatings (including floor coatings, primers and sealers) must not exceed the VOC content limits established in South Coast Air Quality Management District (SCAQMD) Rule #1113. SCAQMD #11168 sets volatile organic compound limits for paints and coatings applied on site.

* For information pertaining to % materials extracted, harvested and/or recovered locally, please consult with your CHAPCO Representative.

CRI Green Label Plus™ Certification

CHAPCO products have long held the Carpet & Rug Institute's Green Label Plus designation. This assures those who use our adhesives that we meet the industry's most stringent criteria for low VOC emissions, contributing to the health of indoor environments as well as the sustainability of the outdoor environment.
